Supplement to the

"Proceedings of the Indian Academy of Sciences"

INDEX TO VOL. LVI—(B)

AUTHORS' INDEX

Abraham, V. .. *See* Nair and Abraham.

Agnihothrudu, V. .. Notes on fungi from North-East India, XVII, 97.

Ambaye, R. Y., Khanolkar, V. R. and Panse, T. B. Studies on tumour inhibitory activity of indigenous drugs, I, 123.

Bal, D. V. .. *See* Desai and Bal.
See Joshi and Bal.

Baxi, A. J. .. *See* Talageri and others.

Bhambie, S. .. Studies in pteridophytes, II, 56.

Chandra, Naresh .. Morphological studies in the Gramineæ, II, 217.

David, A. .. Brief taxonomic account of the Gangetic *Pangasius pangasius* (Hamilton) with a description of a new subspecies from the Godavary, 136.

Desai, H. V. and Bal, D. V. *Monstrilla lata*, a new species of monstrilloid copepod from Bombay plankton, 131.

Deshpande, B. D. and Premlata Joneja Seedling anatomy of certain members of the Umbelliferae, 332.

Devi, H. Maheshwari .. Embryological studies in Gentianaceæ (Gentianoideæ and Menyanthoideæ), 195.

George, M. G. .. Occurrence of a permanent algal bloom in a fish tank at Delhi with special reference to factors responsible for its production, 354.

Haque, S. Q. .. *See* Misra and Haque.

Janaki Ammal, E. K. and Singh, S. D. Induced tetraploidy in *Dioscorea deltoidea* Wall., 329.

Joshi, U. N. and Bal, D. V. *Cassidina extenda*, a new species of isopod from Bombay, 372.

Khanolkar, V. R. .. *See* Ambaye and others.

Krishnamoorthi, B. .. Salinity tolerance and volume regulation in four species of Polychætes, 363.

Malaviya, Miss Manju .. A study of sclereids in three species of Nymphæa, 232.

Mammen, T. A. and Sulochanan, P. Induced breeding of Catla in the Mettur Reservoir, 27.

Menon, Vimala, K. .. *See* Rao and Menon.

Misra, A. P. and Haque, S. Q. Factors affecting the growth and sclerotial production in *Sclerotium rolfsii* Sacc., causing storage rot of potato, 157.

Nair, N. C. and Abraham, V. Floral morphology of a few species of Euphorbiaceæ, 1.

Nair, P. V. Ramachandran *See* Prasad and Nair.

Nigam, R. K. and Shukla, J. P. The dehydrogenase activity of resistant strains of *Escherichia coli* to stylomycin and viomycin, 237.

Padmanabhan, D. .. The embryology of *Avicennia officinalis* L., IV, 114.

Panse, T. B. .. *See* Ambaye and others.

Parameswaran, K. N. .. The foetal membranes and placentation of *Enhydris dussumieri* (Smith), 302.

Parthasarathi, K. .. *See* Ramaiah and others.

Patel, M. K. .. *See* Srinivasan and others.

Periasamy, K. .. Studies on seeds with ruminate endosperm, II, 13.

Prasad, R. Raghu and Nair, P. V. Ramachandran A comparison of values of organic production obtained from oxygen and C^{14} methods, 296.

Premlata Joneja .. *See* Deshpande and Premlata Joneja.

Ramaiah, P. K., Parthasarathi, K. and Rao, P. S. Studies on sandal spike, IV, 111.

Raman, C. V. .. The role of the retina in vision, 77.

Rangaswami, G. and Subbaraja, K. T. Azotobacter in paddy soil, 174.

Rao, A. R. and Menon, Vimala, K. *Palmoxylon narayanai*, a new species of petrified palm stems from Mohgaon Kalan, India, 286.

Rao, P. S. .. *See* Ramaiah and others.

Reddy, T. K. Ramachandra — Role of plant cover in distribution of fungi in Nilgiri forest soils, 185.

Samarth, Kumud D. .. *See* Talageri and others.

Sharma, H. P. .. Contributions to the morphology of the Nyctaginaceæ, I, 35.

Studies in the order Centrospermales, III, 269.

Sharma, M. R. .. Morphological and anatomical investigations on *Artocarpus* Forst., I, 243.

Shukla, J. P. .. *See* Nigam and Shukla.

Singh, S. D. .. *See* Janaki Ammal and Singh.

Singh, V. .. Vascular anatomy of the flower of some species of the Pontederiaceæ, 339.

Sobti, S. N. .. Interspecific hybrids in *Mentha*, I, 51.

Srinivasagam, R. Theodore — Effect of light on the orientation and movement in *Dasychone cingulata* Grube, 169.

Srinivasan, M. C., Patel, M. K. and Thirumalachar, M. J. — Two new phytopathogenic bacteria on Verbenaceous hosts, 88.

Two bacterial leaf-spot diseases on *Physalis minima* and studies on their relationship to *Xanthomonas vesicatoria* (Doidge), Dowson, 93.

Subbaraja, K. T. .. *See* Rangaswami and Subbaraja.

Sulochanan, P. .. *See* Mammen and Sulochanan.

Talageri, V. R., Samarth, Kumud D. and Baxi, A. J. — Studies on the effects of nitrogen mustard and carbon tetrachloride on liver nucleic acids of rats, 259.

Thirumalachar, M. J. .. *See* Srinivasan and others.

Vasu, B. S. .. The lateral line system and sound perception in *Ophiocephalus striatus* Bloch., 102.

TITLE INDEX

Algal bloom, permanent, occurrence of a, in a fish tank at Delhi with special reference to factors responsible for its production (George), 354.

Artocarpus Forst., morphological and anatomical investigations on, I (Sharma), 243.

Avicennia officinalis L., the embryology of, IV (Padmanabhan), 114.

Azotobacter in paddy soil (Rangaswami and Subbaraja), 174.

Bacterial leaf-spot diseases on, two, *Physalis minima* and studies on their relationship to *Xanthomonas vesicatoria* (Doidge) Dowson (Srinivasan and others), 93.

Bacteria, phytopathogenic, two new, on verbenaceous hosts (Srinivasan and others), 88.

Cassidina extenda, a new species of isopod from Bombay (Joshi and Bal), 372.

Catla, induced breeding of, in the Mettur Reservoir (Mammen and Sulochanan), 27.

Centrospermales, order, studies in the, III (Sharma), 269.

Dasychone cingulata Grube, orientation and movement in, effect of light on the (Srinivasagam), 169.

Dioscorea deltoidea Wall., induced tetraploidy in (Janaki Ammal and Singh), 329.

Enhydris dussumieri (Smith), the foetal membranes and placentation of (Parameswaran), 302.

Escherichia coli, resistant strains of, the dehydrogenase activity of, to stylomycin and viomycin (Nigam and Shukla), 237.

Euphorbiaceæ, floral morphology of a few species of (Nair and Abraham), 1.

Fungi from North-East India, notes on, XVII (Agnihothrudu), 97.

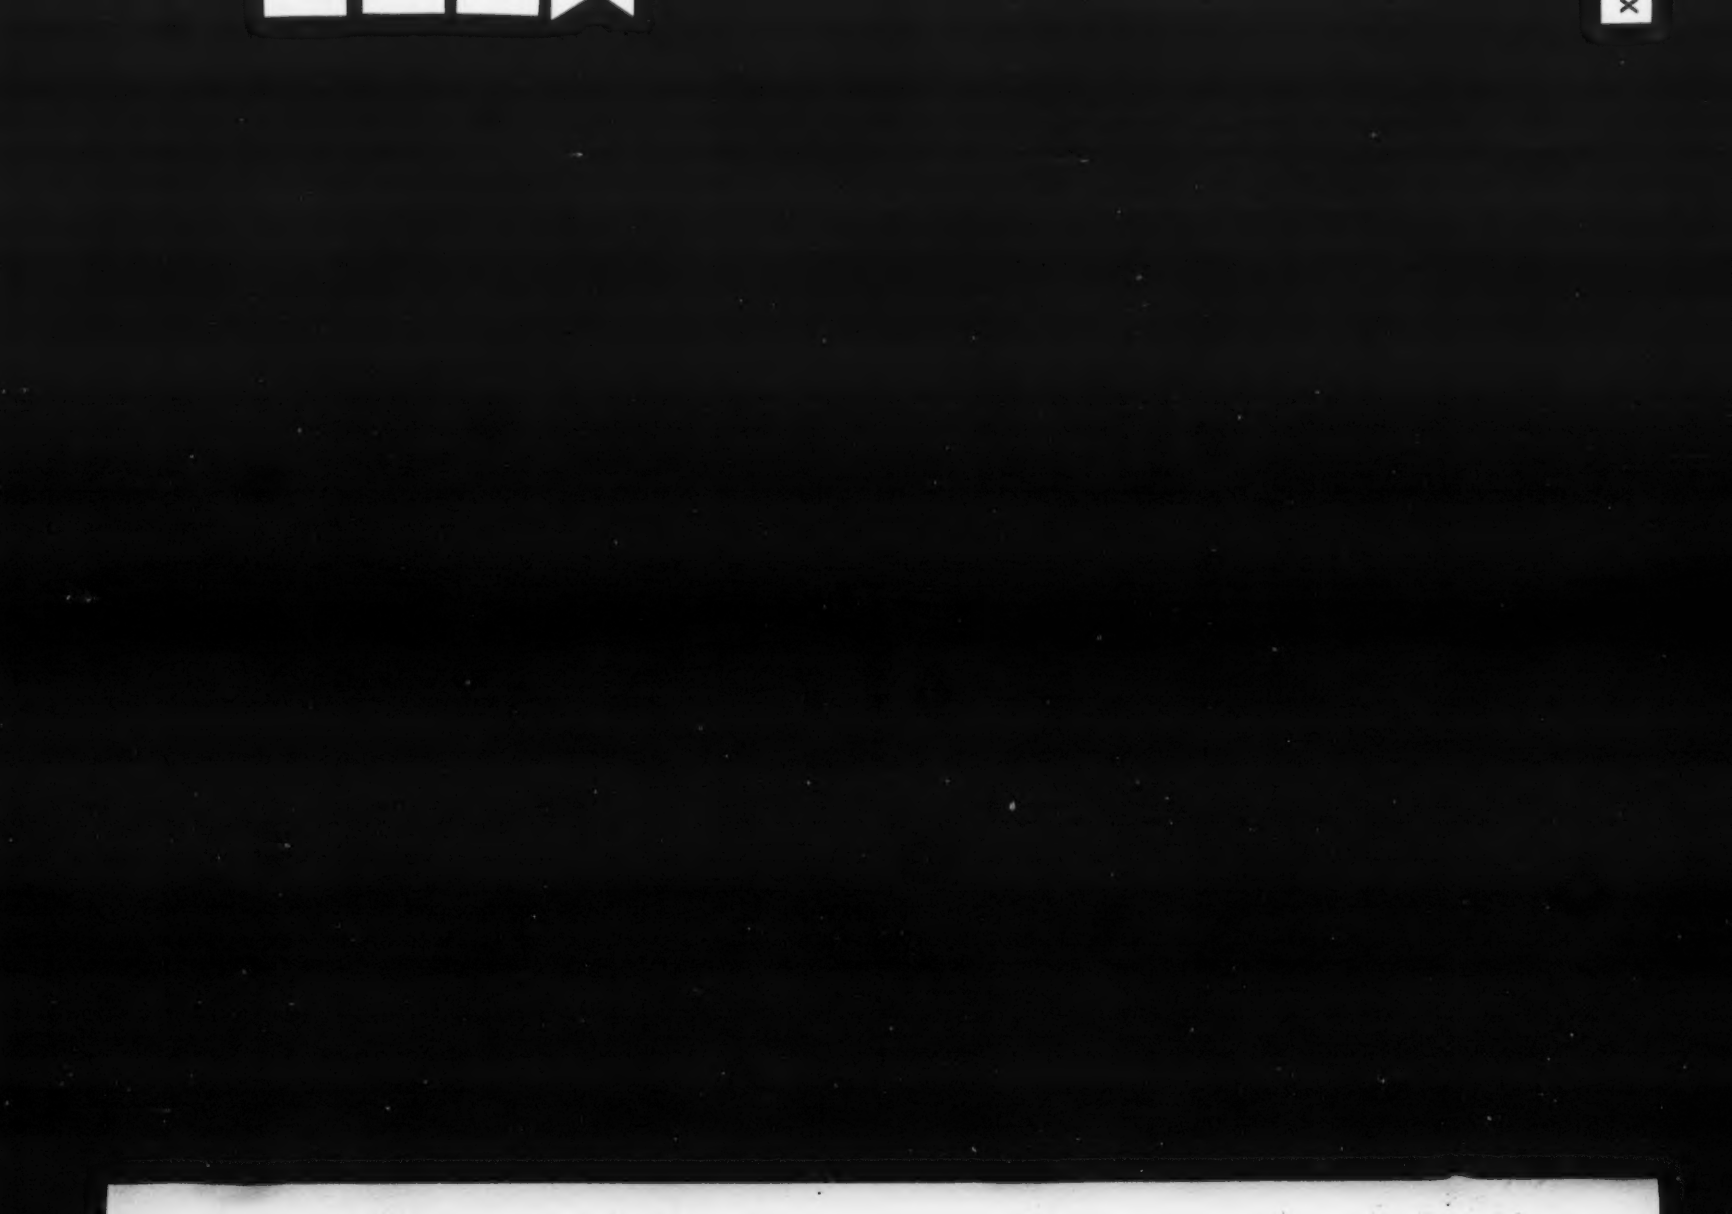
Fungi in Nilgiri forest soils, distribution of, role of plant cover in (Reddy), 185.

Gentianaceæ (gentianoideæ and menyanthoideæ), embryological studies in (Devi), 195.

Gramineæ, morphological studies in, II (Chandra), 217.

Mentha, interspecific hybrids in, I (Sobti), 51.

Monstrilla lata, a new species of monstrilloid copepod from Bombay plankton (Desai and Bal), 131.

Nitrogen mustard and carbon tetrachloride, studies on the effects of, on liver nucleic acids of rats (Talageri and others), 259.


Nyctaginaceæ, contributions to the morphology of the, I (Sharma), 35.
